~$ informatics engineering student

ABOUT ME

I am an Informatics Engineering student who loves spending time in front of the computer, fishing, and hanging out and laughing with my friends, whether they are from Scouts or school.

Currently, I am looking for a curricular internship in the field, where I can take my first steps towards building a career in one of my areas of interest: **Cloud Engineering**, **Cybersecurity**, or **Network Management**. I hope to find a company whose values I identify with and where I can genuinely enjoy working and growing professionally.
